

- 1** Înainte de montaj, peretele trebuie curățat de impurități, de exemplu, cu o lavetă și o soluție de curățare pe bază de alcool.

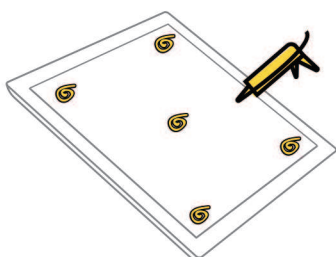

- 2** Aranjează panourile în funcție de modelul ales.

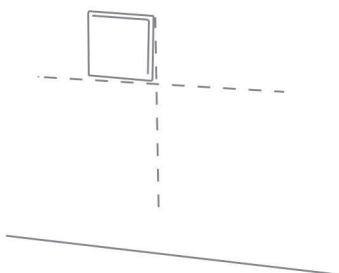

- 3** Desenează o linie orizontală și o linie verticală cu ajutorul unei nivele. Asigură-te că liniile nu depășesc zona stabilită pentru montaj.

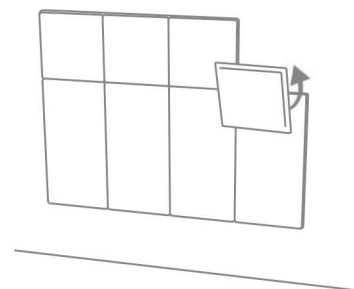

- 4** Aplică adezivul punctat pe spatele panoului - la mijloc și la colțuri.

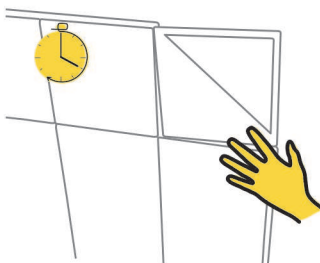

- 5** Poziționează panoul în locul marcat și fixează-l.

- 6** Continuă procedeul, aranjând panourile în concordanță cu modelul ales.

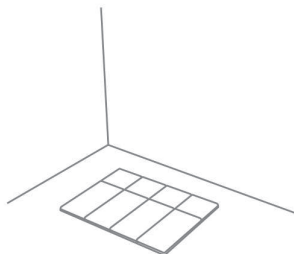

- 7** Apasă fiecare panou pe perete pentru a îl fixa corect. Ține minte că timpul în care îl poți repositiona este limitat (deoarece adezivul are uscare rapidă).
