INTRODUCTION

This portal is designed for domestic use to the exclusion of any residential or business use.

SAFETY, ENVIRONMENTAL AND LEGISLATION INSTRUCTIONS

SAFETY AND ENVIRONMENTAL INSTRUCTIONS

FAILURE TO FOLLOW CEMANUEL WARNINGS CAN CAUSE VERY SERIOUS INJURY AND/OR DAMAGE TO THE GATE.

To make the safety instructions easier to understand, the following symbols are used in this manual:

This WARNING symbol indicates actions or behaviors that could lead to a dangerous situation or to contact with dangerous organs which could cause very serious injury.

This 'CAUTION' symbol indicates important points which could lead to damage to the gate if not respected.

CHECKS AND ADVICE BEFORE ASSEMBLY

· Consult the instructions before any assembly.
· Check using the instructions that all the parts are present.
· In the event of missing or damaged parts, contact Virtuoso after-sales service before carrying out assembly.
· Arrange the parts before assembly by arranging the work space to facilitate assembly.
· Do not mount the gate on a windy day.
· Make sure there is enough space for the doors to open.
· Assembly preferably requires 2 people with good DIY knowledge

SECURITY

In order to mount your gate safely, use the following personal protective equipment:

Noise canceling headphones

Gloves

Shoes

Glasses

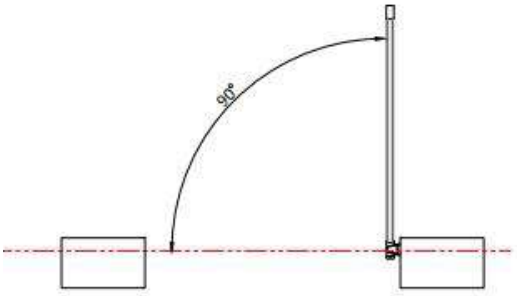
I.DIMENSIONS

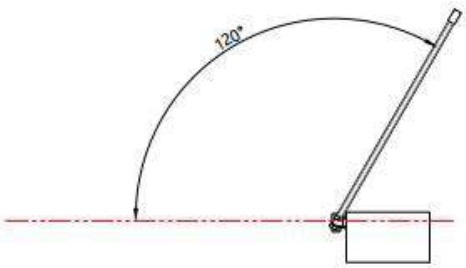
Gate length: 90cm-100cm

Gate height: 180cm-200cm

Minimum space between posts: 93.6cm-103.6cm

Minimum post height: 200cm-220cm





ATTENTION

If you wish to motorize your gate, it is imperative to take into account the specifics of motorization installation in the positioning of your gate and this before installing your gate.

IV.After-sales service and guarantees

For any technical problems and to obtain spare parts, contact the Pre-Sales Service using the following contact details:
After-sales service Virtuoso :

·By email: comenzi@stift.ro
website ： www.virtuoso.ro
· By adress : Ion Creanga 10, 075100 Ilfov, Otopeni

· Before requesting spare parts, have this notice ready to indicate the number of the part concerned (see parts tables in the nomenclature section).

ATTENTION

Do not modify the portal. Any modification to the gate voids the warranty.

The warranty does not cover:
· Cases of non-compliance with the conditions of use, care, maintenance and storage described
In this instruction manual;
· Abnormal use of the portal;
· Damage caused by shocks received by the gate;
· Installation of the gate that does not comply with these instructions;
· Use of spare parts not supplied by the Virtuoso pre-sales service;
· A malfunction following a modification of the portal

INTRODUCERE

Acesta poarta este conceputa pentru uz casnic, cu excluderea oricărei utilizări comerciale sau de afaceri.

INSTRUCȚIUNI DE SIGURANȚĂ, MEDIU ȘI LEGISLATIE

INSTRUCȚIUNI DE SIGURANȚĂ ȘI DE MEDIU

NERESPECTAREA AVERTIZARILOR DIN ACEST MANUAL POATE PROVOCA RĂNIRI FOARTE GRAVE ȘI/SAU DSITRUGEREA PORȚII.

Pentru a face mai ușor de înțeles instrucțiunile de siguranță, în acest manual sunt utilizate următoarele simboluri:

Acest simbol de AVERTISMENT indică acțiuni sau comportamente care ar putea duce la o situație periculoasă sau la contactul cu organe de asamblare periculoase care ar putea cauza răni foarte grave.

Acest simbol „ATENȚIE” indică puncte importante care ar putea duce la deteriorarea porții dacă nu sunt respectate.

VERIFICARI SI SFATURI INAINTE DE MONTARE

Consultați instrucțiunile înainte de orice asamblare.

Verificați folosind instrucțiunile dacă toate piesele sunt prezente.

· În cazul pieselor lipsă sau deteriorate, contactați serviciul post-vânzare Virtuoso înainte de a efectua asamblarea.

· Aranjați piesele înainte de asamblare prin aranjarea spațiului de lucru pentru a facilita asamblarea.

· Nu montați poarta într-o zi cu vânt.

· Asigurați-vă că există suficient spațiu pentru deschiderea ușilor.

· Asamblarea necesită de preferință 2 persoane cu bune cunoștințe de bricolaj

SECURITATE

Pentru a vă monta poarta în siguranță, utilizați următorul echipament individual de protecție:

Căști cu anulare a zgomotului

Mănuși

Pantofi

Ochelari

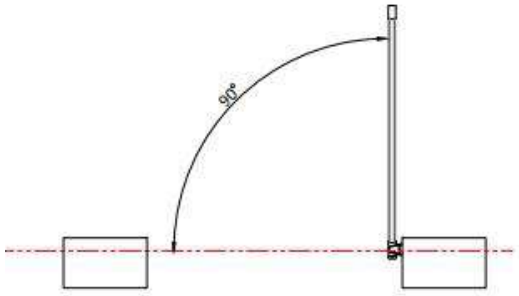
I.DIMENSIUNI

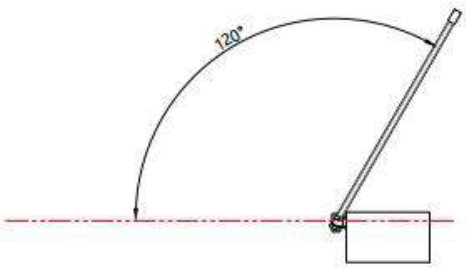
Lungimea portii: 90cm-100cm

Inaltime poarta: 180cm-200cm

Spațiu minim între stâlpi: 93.6cm-103.6cm

Înălțimea minimă a stâlpului: 200cm-220cm





ATENŢIE

Daca doriti sa iti motorizezi poarta este imperativ sa tii cont de specificul instalarii motorizarii in pozitionarea portii tale si asta inainte de a-ti monta poarta.

IV.Serviciul post-vânzare și garanții

Pentru orice probleme tehnice și pentru a obține piese de schimb, contactați Serviciul Pre-Vânzare folosind următoarele date de contact:
Serviciu post-vânzare Virtuoso:

·By email: comenzi@stift.ro
website ： www.virtuoso.ro
· By adress : Ion Creanga 10, 075100 Ilfov, Otopeni

· Înainte de a solicita piese de schimb, aveți la dispoziție această notificare pentru a indica numărul piesei în cauză (vezi tabelele de piese din secțiunea nomenclatură).

ATENŢIE

Nu modificați portalul. Orice modificare adusă porții anulează garanția.

Garanția nu acoperă:
· Cazuri de nerespectare a condițiilor de utilizare, îngrijire, întreținere și depozitare descrise
În acest manual de instrucțiuni;
· Utilizarea anormală a portii;
· Daune produse de socurile primite de poarta;
· Montarea portii care nu respecta aceste instructiuni;
· Utilizarea pieselor de schimb nefurnizate de serviciul de pre-vânzare Virtuoso;
· O defecțiune în urma unei modificări a portii
